II. Information Items

Housing Feasibility Study:

construct, and operate housing on the Boca Raton and Jupiter campuses. Dr. King was accompanied by officials from Brailsford & Dunleavy, the student housing financial consulting firm that is assisting the University with the project. The ITN will call for proposals to demolish Algonquin Hall and University Village Apartments on the Boca Raton campus and replace them with 500-bed and 1000-bed units, respectively, and to construct two new 150-bed units on the Jupiter campus. These developments will be phased in over a five- to seven-year period. Dr. King noted that we have significant demand for new on-campus housing, particularly for students returning after their freshman year. Dr. Wagner asked about the cost to the students; the consultants replied that the project would look for savings opportunities at every step. They further explained that the reason for seeking to develop the projects as a public-private partnership was to shift the risk and associated costs of finance, construction, and operations and maintenance to a private developer. Several trustees commented that the concept made sense.

V. Spring Retreat

Chair Barbar stated that the 2018 BOT calendar would include BOT retreat in the spring, so that items that were intended to have been discussed at the canceled September retreat could be reviewed. The date would be included in the calendar at next month's BOT meeting.

Chair Barbar summarized his written evaluation of President Kelly's performance in the 2016-17 fiscal year, emphasizing the BOG Chair's effusive praise of Dr. Kelly and Dr. Kelly's strong relationships with the Florida Legislature and the Governor. He noted several milestone accomplishments by Dr. Kelly and the administration. Trustees Lawless, Dorman, Moabery, Davis, Cane, Stillely, McDonald, and Workman each added their assessments of Dr. Kelly's performance, all of which were extremely positive. Trustee Wagner also praised Dr. Kelly's performance, though he noted that administration sometimes has an attenuated relationship with the faculty, which he felt should be improved because the faculty are the engine of the University. He noted Dr. Kelly is exceptionally accessible and always listens carefully.

A motion was made and seconded to approve Chair Barbar's evaluation of the President. With no further discussion or amendments, the motion passed unanimously.

Chair Barbar then moved to amend Dr. Kelly's employment agreement to provide an annual executive physical exam as a benefit. The motion was seconded. Trustee Wagner asked whether other university presidents receive executive physicals. Mr. Kian responded that the presidential compensation survey that they Board commissioned last year showed that several other presidents did indeed receive such a benefit. Trustee McDonald asked whether it was a common executive benefit. Trustee Moabery responded absolutely. **With no further discussion or amendments, the motion passed unanimously.**

Chair Barbar then moved to award Dr. Kelly a performance bonus of 20% of his base salary, the maximum amount allowed under his employment agreement. The motion was seconded. Trustee Wagner asked the Board to consider the public perception of such a bonus. Trustee
